Leica Zeno FLX100 Smart Antenna

Data sheet

Location data is a commodity that underpins decision making no matter the industry.

The Leica Zeno FLX100 smart antenna captures spatial data in a simple and flexible way allowing you the freedom to work how you want.

A universal handheld tray enables you to pair the FLX100 with your own smartphone or tablet. For higher accuracy data capture just use a survey pole leveraging HxGN SmartNet RTK technology.

Use Leica Zeno Mobile for the ultimate experience in professional data capture or pair with Leica Zeno Connect to enable high accuracy positioning in other data collection apps on various operating systems.

Leica FLX100, is your flexible solution from a trusted partner.

- GIS data collection made easy: Simplify your workflows and unfold new ways of working.
- Centimetre accuracy compact GNSS: Real multifrequency tracking with accuracy <2 cm horizontal (2D) accuracy in an ultra-portable housing.
- Build your GIS handheld solution: Pair the FLX100 with the universal handheld tray and your mobile device to create the handheld solution that fits your needs.
- Use any Android or Windows mobile device: The FLX100 is compatible with devices running Windows or Android.
- Use Zeno Mobile or any other data collection app: Combine with Zeno Mobile or expand the possibilities in your selected 3rd party software.
- Rugged, made for tough worksites: Be ready to face the toughest conditions. The FLX100 is protected against water, dust and drops from 1.2 meters.
- Leica Geosystems support and service: Benefit from 2 years of warranty and Leica's professional service and support.
